UNFINISHED BUSINESS

Locker Assignments Update

The Recreation Manager advised that the locker assignment project is progressing.

Update- Clubhouse Five

The Executive Director advised that all required actions will soon be complete for the movement of the Video Producers Club into Clubhouse Three. Additionally, Life Line is vacating their space within Building Five, which allows for the following proposal regarding space allocations:

Phase 1 – Video Producers Club is estimated to be complete by May 31, with approved funding to \$5000. Allow use of vacated Life Line space by the Physical Properties and Recreation departments. Direct costs would be staff time, on an as-needed basis.

Phase 2 – Retrofit the area vacated by the Video Producers Club into a meeting and conference room similar to the Administration Conference Room. Cost estimates are pending and would be subject to final Committee and GRF Board approval.

Phase 3 - Retrofit the area vacated by the Computer Club into a satellite Security Office. Cost estimates are pending and would be subject to final Committee and GRF Board approval. Also, relocate the Council on Aging; the estimated expenses are no greater than \$500.

Phase 4 – Create new Recreation and Distribution space; project to commence by Committee action when sufficient need and funding is in place.

Eight Committee members and the Executive Director discussed the topic.

News Building, Second Floor

As a matter of information, the Executive Director advised that the available space on the second floor of the News Building would be more than adequate to relocate the ITS department staff and provide work space for hardware configuration; the topic of supervision of the ITS staff will be discussed in the Executive Session of the Executive Committee. The space vacated by the ITS department would allow for the Accounting Department's general needs.

Shuffleboard Courts/Proposed Multi-Use Outdoor Area, Clubhouse Two

Removal of the unused Shuffleboard courts and the potential construction of a picnic area was discussed.

Shareholder/members have embraced the activity of Pickle ball enthusiastically, leading to shareholder/members waiting to use the two courts on Sundays. General discussion was held on the possibility of renovating the unused area behind Clubhouse Two (the previous lawn bowling courts) into a multi-use court, which could be used for pickle ball, badminton, basketball, outdoor exercise or events/general use.

Ms. Rapp MOVED, seconded by Mrs. Damoci and carried unanimously by the Committee-

TO refer conceptual approval of a Multi-use Outdoor area, Clubhouse Two, to the Recreation Department.

NEW BUSINESS

Vacant Trust Property, Mutual 8/E Dorado or Trust Property, Mutual 8/Lot E

The Recreation Department has received requests for the addition of a Bocce Ball court and was substantiated by a petition bearing the names of 55 shareholder/members who believe the addition would be beneficial to the amenities offered on Trust Property.

Two possible locations have been identified as having suitable space and would require only limited improvements for Bocce Ball use: the lawn behind Clubhouse One shuffleboard and the lawn area, Lot E, Trust Property (El Dorado Road, Mutual 8). These areas would require progressive mowing and top dressing to bring an area of 10 ft x 80 ft into a flat, level turf surface. Bocce Ball players would be required to mark the court and remove strings/ribbons upon completion of the game.

Mrs. Damoci MOVED, seconded by Mr. Lukoff and carried unanimously by the Committee –

To refer consideration of locating the Bocce Ball court to Trust Property, at Clubhouse One, to the Recreation Committee.

Conversion of Existing Facilities Drawings to CAD

In response to requests to obtain a quote from Hoskins and Hoskins to reproduce facilities existing drawings in a CAD format, to allow for better legibility. The cost, using current square footage, is \$7,950; for an additional charge of \$2,500, square footage could be verified.

Ms. Snowden MOVED, seconded by Mrs. Damoci and carried unanimously by the Committee-

TO refer the recommendation to reproduce existing facilities drawings in a CAD format to the Physical Properties Committee.

POLICIES

No policy matters were discussed.
